# Control software

**SCE2-MOTION** can be controlled by any G-code sender like Candle, Universal-G-Code-Sender , and many more. Most of these software packages lack the g-code generator part. So highly specialized open-source programs had to be created from scratch.

## RSB1 360 product photography

- Source code on GitHub
- Windows releases also on GitHub
- More details about motion control software

Code is written with Python it can be run on any modern operating system, even Raspberry Pi
